WORKS DONE

REPORT ON THE ACTIVITIES CARRIED OUT IN THE FIELD OF EDUCATION IN 2024

Structure

A new organizational structure was developed at TSUOS. The number of faculties was optimized from 7 to 4, and the number of departments was reduced from 27 to 17.

Transformation

Funds saved in the academic sphere as a result of transformation and optimization measures: 277,756 USD

Internships

The duration of internship practice has been increased from 12 weeks to 18 weeks. TSUOS signed with 18 organizations to organize student internships and support graduate employment.

Academic hours

Compared to the 2023/2024 academic year, teaching hours were reduced by 13,760 hours, and staff positions were cut by 56.

Majors

Starting from the 2024/2025 academic year, 15 educational fields and 19 specialties have been launched.

Curriculum

Qualification requirements, curricula, and course programs were developed based on the programs of TOP-500 universities in international rankings.

Academic direction

Admissions

Organizing student admissions for new academic programs and specializations at the university based on labor market demands

1

Internationalization

Taking measures to gradually introduce subjects and programs taught in foreign languages into the university's educational process

2

Partnerships

Implementing joint educational programs with Ankara Hacı Bayram Veli University (Türkiye), Keimyung University (Korea), and Gansu Institute of Political Science and Law (China)

3

E-learning

Launching distance education in the field of History

4

Innovation

Introducing a dual education system in Oriental Studies, taking into account modern trends in the field

5

The initiatives highlighted above show the university's clear focus on meeting labor market needs, expanding international cooperation, and embracing modern educational practices. By introducing new academic programs, establishing joint degrees with leading foreign universities, increasing foreign-language instruction, and promoting digital and dual education, the university is creating a more dynamic and competitive learning environment. These efforts not only enhance the quality of education but also strengthen the university's global reputation and prepare students for successful careers in an increasingly interconnected world.
