

**REPUBLIC OF UZBEKISTAN
MINISTRY OF HIGHER EDUCATION, SCIENCE AND INNOVATION
TASHKENT STATE UNIVERSITY OF ORIENTAL STUDIES**

**REGULATION ON THE RECOGNITION OF CREDITS EARNED
BY
TRANSFERRED AND REINSTATED STUDENTS AND
STUDENTS
WHO PARTICIPATED IN ACADEMIC MOBILITY, AND ON
COMPLETING COURSE DIFFERENCES
REGULATION**

Chapter 1. General Provisions

1. This Regulation, pursuant to Decree No. PF-58 of the President of the Republic of Uzbekistan dated 10 April 2026 “On Additional Measures to Improve the System of Higher Education, Science and Innovation,” the regulations approved by Resolution No. 578 of the Cabinet of Ministers dated 13 September 2025, and the Regulation on the Procedure for Introducing the Credit-Module System into the Educational Process in Higher Education Institutions approved by Resolution No. 824 of the Cabinet of Ministers dated 31 December 2020, establishes the procedure at Tashkent State University of Oriental Studies for recognizing credits earned by transferred or reinstated students and students returning from academic mobility, taking account of the competencies they have acquired, and for completing identified course differences.

2. The purpose of credit recognition is to formally incorporate into a student’s individual learning pathway the workload previously completed and learning outcomes (competencies) achieved at another higher education institution, without requiring the student to repeat them, and to ensure continuity of study.

Chapter 2. Responsibilities of the Academic and Methodological Department

3. All duties relating to the recognition of credits earned by students and the identification of course differences are assigned to the Head of the Registrar’s Office.

4. The Head of the Registrar’s Office shall:

review the transcript (academic record), course descriptions (syllabi), learning agreement and other documents submitted by the student;

determine whether previously completed courses correspond to courses in the University curriculum in content, volume (credits) and learning outcomes (and, where necessary, may request a written opinion from the relevant department on course content);

prepare the credit recognition and course differences form using the template annexed to this Regulation.

5. The Registrar’s Office shall prepare its decision no later than 10 working days after all documents have been submitted. It shall be signed by the Head of the

Registrar's Office and the faculty deans and approved by the Vice-Rector for Academic Affairs.

6. The following documents serve as the basis for recognizing credits:

a transcript (academic record) in the prescribed form;

syllabi for previously completed courses or a course catalogue;

for internships and other forms of education, a statement and certificate in the prescribed form.

7. Credits shall be recognized on the basis of the following criteria:

the course learning outcomes (competencies) correspond to or complement the learning outcomes of the relevant course in the University curriculum;

the course content corresponds;

the number of credits allocated to the course corresponds to that in the University curriculum;

a passing grade has been awarded for the course.

8. Grades awarded under the grading system shall be converted using the grade conversion tables approved under the Regulation on the System for Monitoring and Assessing Students' Knowledge in Higher Education Institutions, approved by Order No. 19-2018 of the Minister of Higher and Secondary Specialized Education of the Republic of Uzbekistan dated 9 August 2018. Credits earned by a student under the University's educational programme shall be deemed equal to the number of credits earned in accordance with the learning outcomes established at another higher education institution.

9. When an expelled student is reinstated, the University shall count in full the credits earned before expulsion. If the curriculum has changed, any discrepancies shall be designated as course differences.

Chapter 4. Procedure for Identifying and Completing Course Differences

10. Under the credit transfer and accumulation system used to determine student workload, a student transferring to the University must have a GPA of at least 2.4 in the courses of the standard curriculum. If this requirement is met, the student may,

upon application and taking into account the GPA and course differences, be permitted to continue in the same year or in a lower year (semester).

11. The Registrar's Office shall identify course differences and record them in the Rector's order admitting the student (by transfer or reinstatement) or in an annex to that order. The Registrar's Office shall draw up an individual schedule for completing the course differences together with the student and inform the faculty dean.

12. As a rule, course differences shall be completed by the end of the academic year in which the student is admitted (transferred or reinstated). Each course identified as a difference shall be completed by passing the midterm and final assessments specified in the relevant syllabus. The student may use the summer semester provided for in the Regulation approved by Resolution No. 824 to complete course differences.

13. The fee for completing course differences and retaking unearned credits shall be determined on the basis of the cost per credit. The cost per credit is calculated by dividing the basic tuition fee payable for an academic year by the planned number of credits.

Chapter 5. Recognition of Credits Earned During Academic Mobility

14. The learning components to be completed by a student during academic mobility and the number of credits shall be clearly specified in the learning agreement. The learning components specified in the agreement may not be changed without the consent of the sending higher education institution. A learning agreement is not required for mobility under jointly developed joint educational programmes.

15. A student returning from academic mobility shall submit the transcript issued by the host higher education institution to the Registrar's Office through the faculty dean no later than three working days after the end of the study period.

On the basis of the transcript and the learning agreement, the Registrar's Office shall decide whether to recognize the credits earned during mobility in full or in part.

16. After the student returns from academic mobility, the question of promotion to the next year or retention in the current year shall be decided under the applicable procedures, based on the number of credits earned during mobility.

Chapter 6. Dispute Resolution and Oversight

17. If a student disagrees with the decision of the Registrar's Office and the faculty dean's office, the student may submit a reasoned application to the Vice-Rector for Academic Affairs within three working days after being informed of the decision. The application shall be reviewed within five working days by a panel chaired by the Vice-Rector and including the dean of another faculty, the Head of the Registrar's Office and the Head of the Academic and Methodological Department. The decision shall be communicated to the student in writing.

18. The Vice-Rector for Academic Affairs shall exercise overall oversight of the implementation of this Regulation. The Registrar's Office shall monitor the recognition of credits and completion of course differences and report to the University Rector at the end of each semester.

Chapter 7. Final Provisions

19. This Regulation shall be approved by the University Council. Amendments and additions shall be made by decision of the University Council. Matters not regulated by this Regulation shall be resolved in accordance with Cabinet of Ministers Resolutions No. 578 and No. 824 and other legislation.

20. Persons responsible for violating this Regulation shall be held liable in accordance with the procedure established by law.

APPROVED

Rector of Tashkent State University
of Oriental Studies
